Read Trueman only if you have a time period of 2 years. And that too if you have completely understood everything given in NCERT. If you have only 1 year to prepare or only months left, I won't recommend reading Trueman's. "Reading NCERT is sufficient. You can easily score 320 by reading NCERT solely." Why waste time in other books ? Better read physics and chemistry more and try to score at least 130+ in each ! Hope it helps.
